

Informatik-Kolloquium

Rheinisch-Westfälische Technische Hochschule Aachen
Lehr- und Forschungsgebiet fuer Informatik IV

EINLADUNG

Zeit: Donnerstag, 13. Januar 2005, 16.00 Uhr

Ort: AH I, Ahornstr.55

Referent: Prof. Maurice Herlihy, 2004 Gödel Prize Winner,
Brown University and Microsoft Research

Titel: "Distributed Computing and Combinatorial Topology"

Abstract:

A number of researchers have successfully applied techniques from combinatorial and algebraic topology to solve some long-standing open problems in distributed computing. We will explain the basic concepts and techniques underlying these results. This talk is intended for a general audience, and no prior knowledge of topology is assumed. This talk is adapted from the 2004 Goedel Prize lecture.

Es laden ein: Die Professoren und Dozenten der Informatik
